

# OVESTEEL

## Production Report 2021–2025

This report presents an overview of OVESTEEL's production performance, growth, and manufacturing focus from 2021 through 2025.

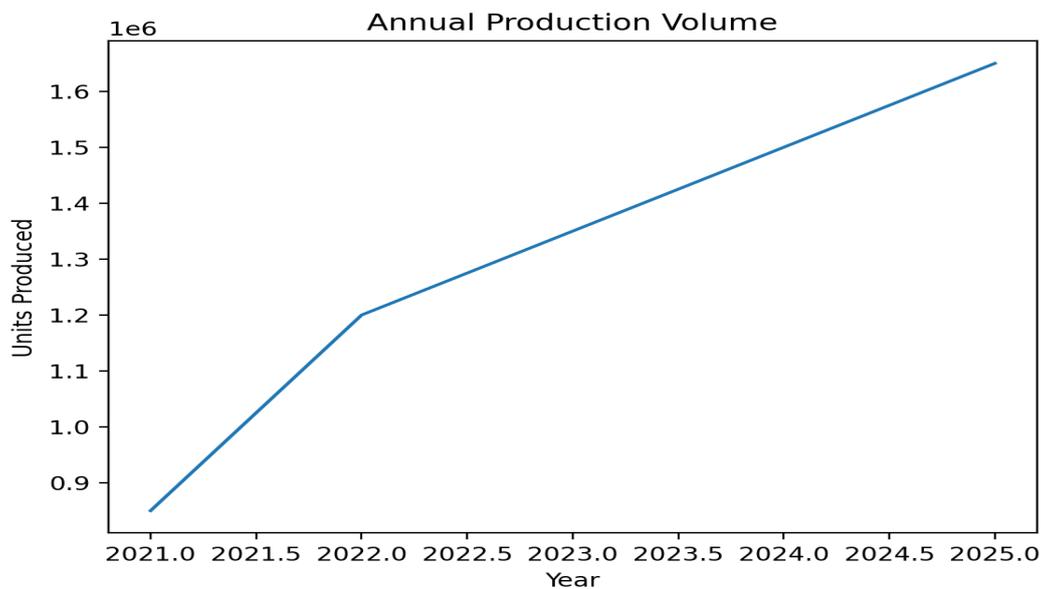

### Production Overview

Between 2021 and 2025, OVESTEEL continuously expanded production capacity, invested in automation, and improved quality control processes to meet increasing global demand.

### Annual Production Output

Year	Units Produced
2021	850,000
2022	1,200,000
2023	1,350,000
2024	1,500,000
2025	1,650,000

### Production Growth Chart

## Quality & Manufacturing Focus

- Automated welding and assembly lines
- Precision machining and balancing
- ISO-compliant inspections
- Custom-engineered conveyor roller solutions

## Strategic Outlook

OVESTEEL continues to invest in technology, people, and process optimization to support long-term growth, reliability, and customer satisfaction beyond 2025.
